Acrylic Painting Using the Wiping Technique

Instructions No. 4133

Difficulty: Beginner

Working time: 30 Minutes

With acrylic painting, you can quickly create a modern canvas painting with vibrant color gradients. By working with wet paint, the colors blend softly together and create interesting textures. This is ideal for beginners and is also a fun little “ DIY-” project to tackle in your spare time. It’s a great way to add pops of color to your home or create a personalized gift.

1) Prepare your work surface

Cover your work surface and have a stretched canvas, acrylic paint and a brush ready.

2) Prime the canvas

Apply a base layer of white acrylic paint to the entire canvas. Important: **Do not** let this primer **dry**. The damp, white

base ensures that the paints will spread more easily later and creates a smooth color gradient.

3) Apply color stripes in the center
Place several color stripes close together in the center of the canvas. Use different colors to create exciting gradients later on.

4) Blend the paint
Take a brush and blend the color stripes outward from the center. This creates the typical acrylic-color gradient with visible brush strokes. Leave a bit of acrylic paint in the center of the stripes to add texture to your artwork.

5) **Create a color gradient**
Repeat this step until the colors blend harmoniously into one another. Don't rinse the brush in between strokes to create a particularly beautiful color gradient.

6) Let it dry
Let your acrylic painting dry completely before hanging it or working on it further.

Now it's your turn: If you'd like to keep experimenting right away, you'll find the perfect acrylic paints, stretched canvas , and brushes here in our online shop to create your next color gradient or other works of art!

Must Have

Talens AMSTERDAM Acrylic paint set "Landscape"

Fill volume: 20 ml
Solvent-free
Content: 12 pieces
