advent calendar from diamond-boxes

Instructions No. 3157

Difficulty: Beginner

Working time: 8 Hours

A DIY-advent calendar is not only a loving gift, but also a wonderful way to increase the anticipation of Christmas. In these instructions, we'll show you how to use the VBS Template set to easily make diamond-boxes. Fill them with little surprises and create an individual advent calendar, that will delight young and old alike.

1. Making boxes

First you make the boxes from the VBS Template set to make the diamond-boxes. Follow the instructions on the packaging of the set. Once all the boxes have been shaped, you can punch a hole in the lid with a hole punch and thread a pretty ribbon through it. You can use the ribbon later to hang up the boxes.

2. Filling the boxes

Fill each box with little surprises. These can be chocolate, toys or personal messages - let your imagination run wild!

3. Use the scratch-off stickers

Use the scratch-off stickers to transfer the numbers from 1 to 24 onto the boxes or small gift tags. These stickers are very easy to apply and give your advent calendar an individual touch.

4. Decoration with motif hole punches

You can use a craft punch to punch out stars and stick them onto the boxes, gift tags or ribbons as desired using handicraft glue . The stars give your advent calendar a festive flair.

5. Paper-Fir garland

Take a beech round stick and wrap the Paper-fir garland around it. Fasten the garland at the ends with a ribbon, that also serves as a hanger. This gives your advent calendar a rustic and Christmassy touch.

6. Hang up the boxes

Finally, hang all the boxes on the Paper-fir garland. Arrange them so that they look nice and are easily accessible. Your homemade advent calendar is now finished and ready to brighten up the Advent season.
