Miniature Jungle Amazonia

Instructions No. 2248

Difficulty: Beginner

Working time: 4 Hours

Welcome to the Jungle – bring the jungle into your home with this miniature landscape. An impressive decoration for the summer!

1. Use scissors to cut out any motifs from the scrapbook pad and the motif sheets. You can use the Amazonia stamp set to stamp motifs onto white paper and cut them out as well.

2. Glue stems of Strip Grass to the inner edge of the plate with hot glue.

3. Take two wooden discs and stick a round rod in the middle of each. Glue the wooden discs to the plate opposite each other. Wrap one wooden skewer with the light chain, stretch it over to the other skewer and wrap the rest of the light chain around there.

4. Glue a natural cane ring onto a wooden disc. Then fix this to the plate with hot glue as well. If you wish, you can also glue decorative elements or motifs there.

5. Arrange the cut-out motifs, wooden decorative elements and small succulents on the plate according to your personal taste. If necessary, fix everything in place with hot glue.

6. As soon as everything has found its place, fill the plate with shell granulate.
