Nautical window pictures with Window Fantasy/ Color

Instructions No. 1790

Difficulty: Beginner

Working time: 1 hour

Our cute **maritime animals** are easy to design and will embellish your windows and other smooth surfaces such as glass or mirrors. They are also great to paint **together with children**. And if you feel like new motifs, the finished **window pictures** can easily be removed from the windows and replaced with new ones.

This is how you paint the sea creatures:

Download the motif template and print it out. **Window Fantasy** is very easy to apply. Simply place your printed sheet with the desired motifs under the film **and paint** with Window Fantasy paint directly from the liner bottle onto the film. It is best to start with the outlines. The drying time is about two hours, but depends on the thickness of your drawn lines.

After the contours have dried, you can begin to colour in the areas as you wish.

Let the paint dry for about 24 hours. After the paint has dried, the finished motif can be peeled off the foil and applied to the window

The pictures also look beautiful on mirrors, tiles or glass surfaces. How do you find your bathroom with these self-designed maritime animals, for example?
