

Anleitung: Jute-Tasche mit Applikationen

Instructions No. 847

With only little effort you can turn a simple jute bag into your **personal shopper bag for your next shopping** trip. This manual explains how easy it is.

And so it is done:

At first, flower motifs, fabric strips or other motifs are cut out of fabric. The edges of the Fabric cuts are now sewn around cleanly and evenly with a loop stitch. The stitch will look especially good on the bag later.

Now simply arrange the pieces of fabric on the bag and **fix** them with the help of iron-on fleece: The iron-on fleece is covered on both sides with a protective film. This is first removed from one side, the piece of fabric is ironed onto this side of the fleece and thus fixed. Then simply remove the second protective foil and fix the self-made one on the bag with Application the iron (you should use an ironing cloth for protection).

This idea is timelessly beautiful!

Some Article are unfortunately no longer available

But this idea is too good to withhold from you. We would be happy to continue to present it to you - let yourself be inspired!
