

Anleitung: Tischdekoration zu Ostern mit Pflanzschale "Gießkanne"

Instructions No. 1086

You are looking for a nice table decoration for the time of Easter? With these instructions you can quickly and easily create your own personal Good Mood Eyeglass Eyeglass Table Decoration. With the unusual optics from planter "watering can" and with the Easter bunnies "Flip" and "Flop" also inexperienced people can make the Easter Floristry.

And it's that easy:

Which handicraft material do I need for the Easter table decoration?

In addition to the planting bowl and the two rabbits, you will need flowers as floristic utensils, Flower arrangement foam, Römerhaften, scissors and a hot glue gun.

We used Easter grass and forsythia twigs to decorate and embellish the planting bowl. Alternatively, you can also decorate with other Easter flowers.

How to create the table decoration step by step

Cut a sufficiently large piece Flower arrangement foam and press it into the planter. Place the Easter Grass on the stick until it is completely covered

Cut small branches of forsythia and put them into the watering can until it looks well filled. Glue one Roman-like under each of the two rabbits with the hot glue gun and place it centrally on the Easter arrangement. You can now apply a yellow ribbon of your choice to the watering can. Now it is perfectly decorated.

Important tips for crafting Floristry-flower arrangements

- Place the floristic arrangement in front of you so that your angle of vision corresponds approximately to the future angle of vision of the observer.
- Do not skimp on the material when cutting the plug-in foam. It is very soft, can be easily pressed into your planter and should not sit loosely.
