

Bottle lanterns

Instructions No. 3268

Difficulty: Beginner 🍷🍷🍷🍷

Working time: 1 hour

The **decoupage technique** can be used to create highly decorative light objects from simple lanterns. Find out here how you can decorate bottle-shaped lanterns with decorative **decoupage paper**.

Design a lantern bottle with decoupage

Decoupage is the technique of decoratively sticking high-quality **motif straw floss**, specially developed for this hobby, onto objects:

Take the **decoupage straw silk**, choose your favourite motifs and carefully cut them out.

Coat the lantern bottle evenly with **Paperpatch glue** (decoupage glue) and then apply the straw floss as smoothly as possible.

This works best if you use a **soft brush** to smooth it out.

Then seal the paper with another layer of glue, as this is transparent and acts as a protective varnish.

Decorate a second lantern bottle in the same way.

To create the perfect look, stick a **decorative ribbon** around the bottle on the edge of your glued-on straw floss using **double-sided adhesive tape**.

Finally, tie a pretty bow.

If you now place an **LED tea light** in each bottle, your bottle lanterns are ready to hang.

Must Have

VBS Wind light "Bottle", height 29 cm

● 5,99 €
