Difficulty: Beginner

Working time: 3 Hours

Easter is just around the corner and what better way to brighten up your home than with a unique, homemade decoration? Our step-by-step guide shows you how to create colorful stick-on motifs and make an atmospheric bowl shine with a chain of light . Not only will you have only fun crafting, but you will also create a beautiful unique piece that will delight your loved ones. So, let your creativity run wild and get started on your DIY-Project with our easy-to-follow instructions!

First, take the prefabricated plug-in motifs. These are often made of material such as wood or cardboard and are easy to paint. Choose your favorite colors and paint the pegboard motifs however you like. Use acrylic paints or special craft paints that adhere well to your material.

Once the paints have dried, assemble the individual parts of the pegboard motifs.

Next, take your bowl and line it with wood wool . wood wool is ideal for creating a natural and cozy base for your Easter decorations. Make sure that the bowl is evenly lined so that the decoration will stand out nicely later on.

Now it's time to use chain of light to give your arrangement that special sparkle. Place the chain of light in the bowl as you wish and carefully attach them to the edges of the bowl with hot glue. The hot glue will ensure that the chain of light holds securely, but be careful not to burn yourself. Allow the glue to dry thoroughly before continuing.

Now it's time to place or glue the painted stick-on motifs and any additional eggs you have prepared into the bowl. Position the objects so that they create a harmonious overall picture.
You now have an impressive Easter decoration!
