Canvas picture Happy End

Instructions No. 2481

Difficulty: Advanced

Working time: 2 Hours

Fascinating textures, an enchanting feather motif and a great happy ending message combine to create a beautiful stretcher picture that is sure to make a great focal point in your home.

Designing with texture paste

Pre-draw a feather on the 20 x 20 cm stretcher in the first step. If you are unsure about drawing the motif, use the "Amazonie Feathers" template as a painting aid. Model the feather with light texture paste and palette knife to create an optically feathery image relief. Then spatula coarse structure paste as optical accents in the corners of the picture.

Painting and lettering

Once the texture pastes have dried, paint the entire stretcher with acrylic paint in ivory, except for the feather relief. Paint on shades of the feather with the color ocher and also paint the corners as shading with the darker ocher. Use gold paint to make subtle accents on the feather, decorate the image with a writing curl.

And finally, "write your own Happy End": practice lettering your beautiful message on a piece of paper and then put it on your picture with your chosen font using a gold acrylic marker.
