Chalkboard with collage

Instructions No. 2851

There are many beautiful ways to capture your vacation memories or exciting adventures. For example, a picture frame with an integrated chalkboard, such as this gold-colored frame, can be designed in a very varied way. You can decorate the black, smooth chalkboard with photos and write on it with special chalk markers to spice it up. With the particularly fine-writing edding 4085 chalk markers by Securit, you can easily create short texts or detailed drawings in 20 vibrant colors, including pastel- and metallic shades. Once decorated, the picture frame is a real eye-catcher and a jewel in your home. And if you want to capture a new highlight on the picture frame, this is no problem, simply remove the photos and wipe the design with a damp cloth and off you go to the next project.

cap closed, remove the cap and pump the marker a few times on an absorbent Paper until the ink appears in the tip. Now you can start activating all other colors in the same way. Always close the marker tightly after use and store it horizontally.

Step 3:

Now use the template to draw the collage heading on the chalkboard using the activated chalk marker . It is best to apply the edge of the letters first and then color them in. If you don't get it right first time or you want to change something, simply wipe off the ink with a damp cloth and start again.

Step 4:

Now arrange the vacation photos on the board and fix them with double-sided adhesive tape . Make sure there is enough space for small texts or drawings between the pictures.

Step 5:

Choose a nice color and then use the edding chalk marker by Securit to write on them as you wish or frame individual photos, just as you like.

Step 6:

Matching drawings or small embellishments spice up the collage and ensure a great result.
