

Christmas lanterns

Instructions No. 2642

Difficulty: Beginner 🍃🍃🍃🍃

Working time: 3 Hours

These self-made lanterns made of transparent paper are a wonderful decoration for the Christmas season. Equipped with an LED tea light, the lanterns give a cosy light.

Make Christmas lanterns

Cut the bottom of each lantern to size. The size is 10 x 10 cm + 1 cm glued edge. Cut the glued edge on the sides and fold it upwards.

In our example, the lanterns were made in two different sizes:

12 cm height + 1.5 cm folded edge at the top x 40 cm length + 1 cm glued edge.

10 cm height + 1.5 cm folded edge at the top x 40 cm length + 1 cm glued edge.

Stamp one of the sides of the tracing paper with the silicone stamps.

Once the paint has dried, the lanterns can be stuck together with double-sided tape. Cut a corner in the top of each

folded edge, then the folded edges can be folded to the side.

If you want to hang it, punch a hole in the lantern at the top of the sides. The lantern hanger is attached there. Tip: To prevent the lantern hangers from slipping out, bend the sides outwards with a pair of decorative pliers.

Finally, decorate the lanterns with the cord and small wooden beads.

Must Have

frohe Weihnachten
Glücksbotschaft
Oh du frohliche
Sternstunden
Wintergrüße
Lichterglanz
merry Christmas
Joy to the world
Grüße vom Nikolaus
