Christmas shake card

Instructions No. 2053

Difficulty: Beginner

Working time: 1 hour

Design your cards, invitations and more **three-dimensional** and interactive. They are fascinating and will conjure a "wow" on the lips of the presentee. In our instructions we have placed snow under the **dome** and made the card wintery. Of course, there are also others Embellishment possible like confetti for a birthday card, hearts for a wedding card and much more.

This is how the shake card is made:

Cut the silver **mirrored cardboard** a little bit smaller than the **folding card** and glue it onto the card with double-sided Adhesive tape adhesive. Place the Shaker Dome on the desired scrapbook and-Paper cut it round in the same size. Glue half of the background paper, fill the Shaker Dome with snow Diamond- and glue it completely Paper

Now place the finished **Shaker Dome** on a second folding card and draw the circle. This circle is punched out with the **punching template** "Circles" using a punching machine. Make sure that the Shaker Dome and the top card with the punched circle are placed correctly on the card. First glue the Shaker Dome to the card, then glue the cardboard with 3D Glue pads . Then decorate the card with bow Ribbon, tag and sticker.
