Christmas tree made from clay pots

Instructions No. 3147

Difficulty: Beginner

Working time: 2 Hours

Experience the magic of Christmas in a new, creative way! And simply make an original Christmas tree from terracotta pots. This DIY-Project not only only makes for a unique festive decoration, but is also great fun to make. Whether you're experienced or new to crafting, these instructions will help you create a festive highlight for your home with little effort.

A Christmas tree made from clay pots

Paint the terracotta-pots with handicraft paint in dark green and leave to dry thoroughly.

Stick the edges of the clay pots with double-sided adhesive tape, remove the protective layer and stick the golden ribbon around them.

Using assembly glue, first glue the terracotta-pots together to form a **pyramid**, then decorate everything with golden star sprinkles (also glue on).

For the **star** on the top of the terracotta-Christmas tree, you can use a craft blank made of acrylic, wood or polystyrene , size approx. Ø 10 cm. Coat your star with napkin varnish and then sprinkle it with glitter: First take one side of the star and, once the varnish and glitter have dried thoroughly, prepare the other side of the star for decorating with the glitter.

Glue the star to the top of the terracotta tree and decorate it in your home, together with some fir greenery and pine cones.

Must Have

Terracotta pots, Inside-Ø 14 cm, 5 pcs.

Content: 5 pieces
Diameter (outside): 15.7 cm
Height: 13.5 cm
Material: Terracotta
