Classic Christmas tree tags are beautiful all the time. The bark tree slices designed with napkin technique and in natural look are also perfect to be used as gift tags.

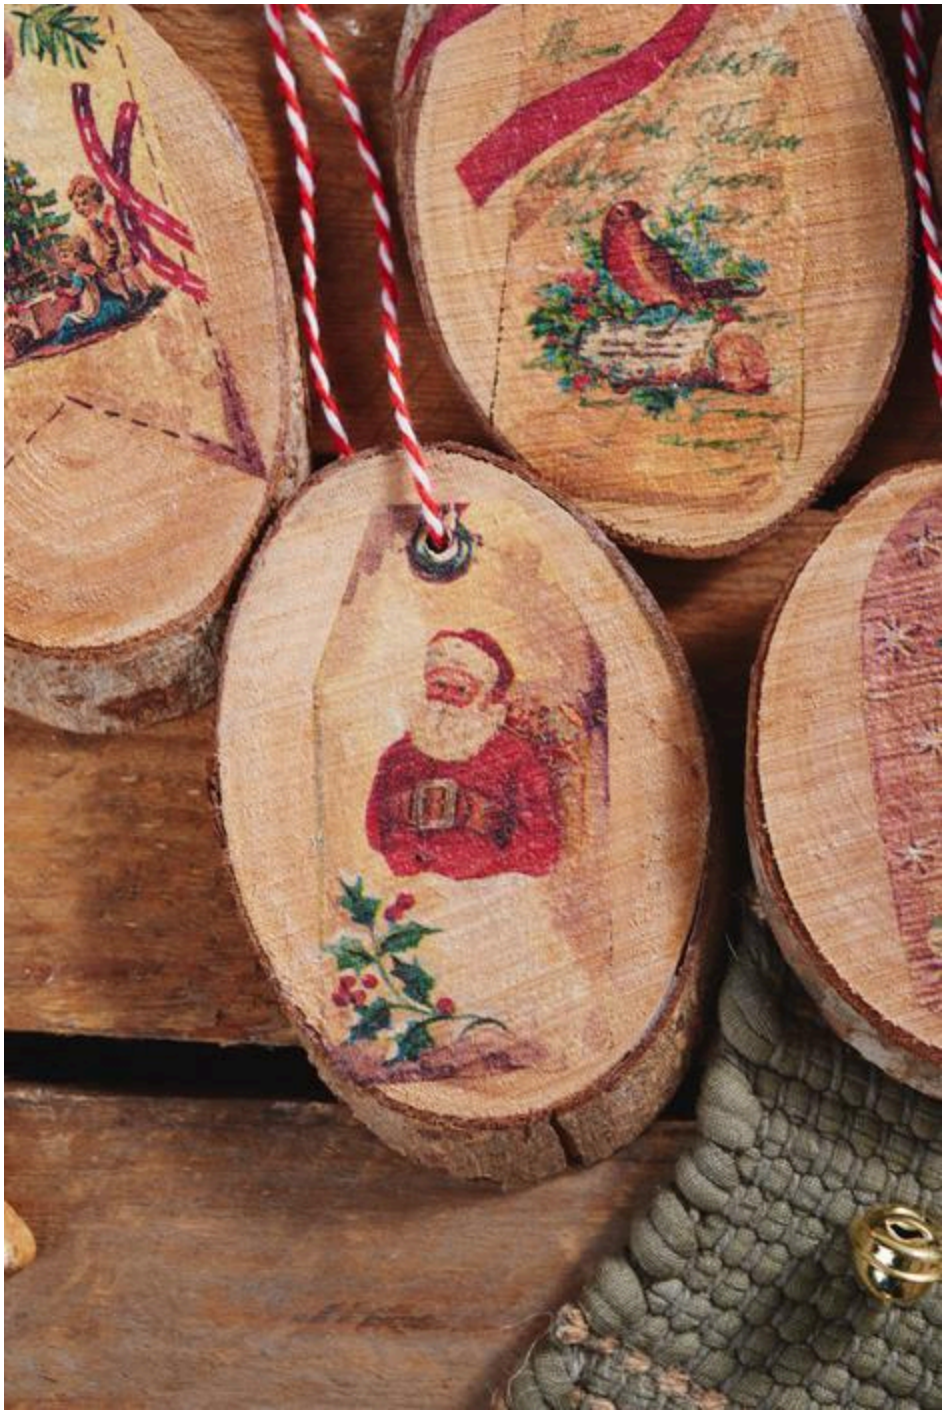

Classic napkin technique for your Christmas tree

First take a motif from the Christmas napkin for each bark slice to be designed and remove the lower paper layers of the napkin.

Now place the top paper layer with the printed motiv of the napkin on a bark slice previously coated with napkin varnish. Seal the napkin technique with the help of another layer of napkin varnish.

Once everything is dry, drill a hole in each bark disc and pull a cotton cord through it as a hanging ribbon.

Extra Tip:
Hanging holes can be drilled in bark slices with a simple hand drill set. However, this work is a bit tedious. Therefore, we recommend that you drill the holes electrically.
