Colorful Easter bush with pompoms

Instructions No. 3316

Difficulty: Beginner

Working time: 1 hour

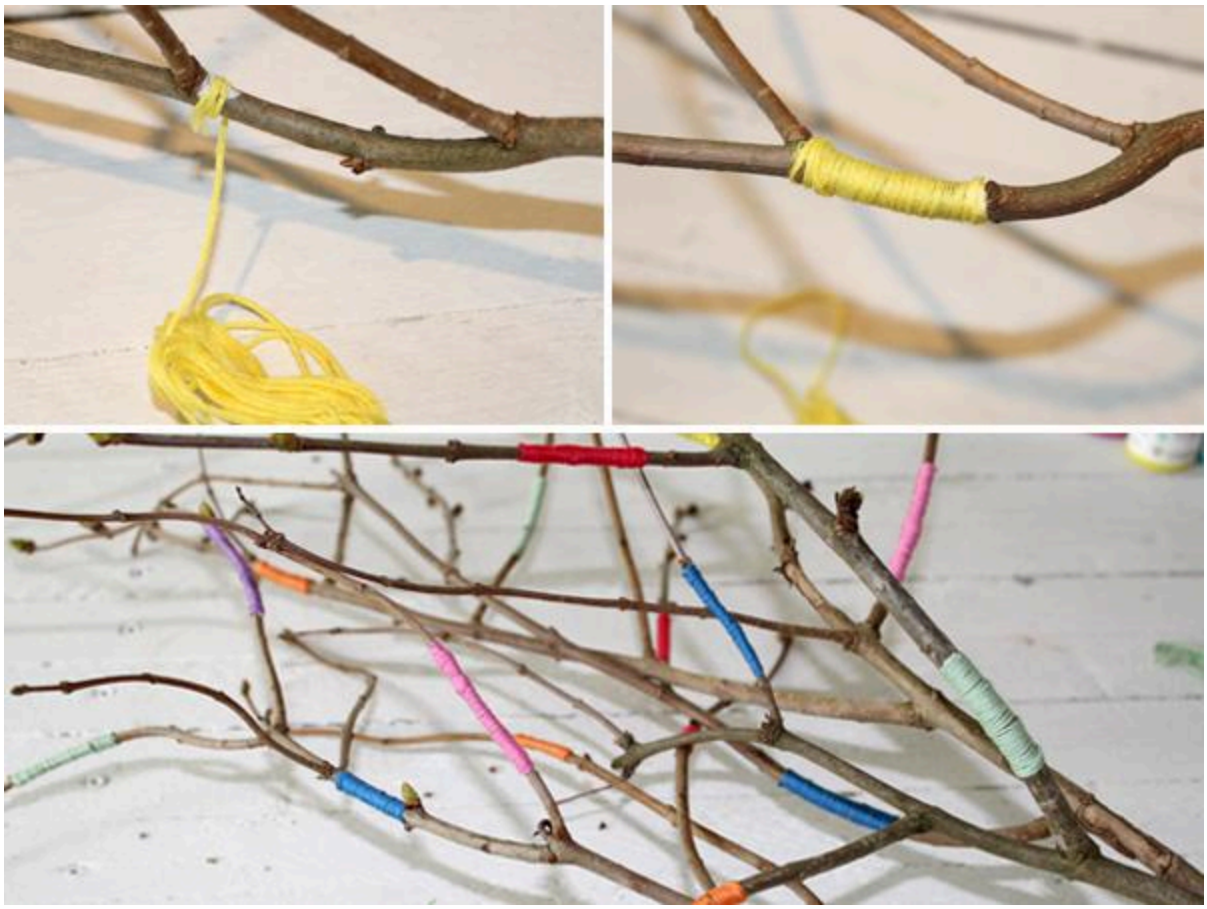

Easter is just around the corner, and what better way to brighten up your home than with homemade decorations? These instructions are perfect for anyone who likes it colorful and imaginative. With a little creativity and fun, you can create your very own Easter bush. Even the little ones can help out and create colorful highlights. Let's get started!

Bring color into your home with a colorful Easter bush

decorate the branches

Cut off a few ends of the colorful embroidery thread and wrap them around the branches. Make sure you secure the ends of the yarn with some handicraft glue . If you use fresh branches, make sure not to wrap any buds around them so that they can bloom or turn green in the vase.

Then select the small pompoms from the bulk pack and stick them to the branches. If you are using handicraft glue , press the pompoms on a little longer if necessary. Hot glue is quicker, but may leave visible traces of glue.

easter eggs paint

If you don't want to leave the eggs unpainted, first prime them with handicraft paint. Be careful not to make the papier-mâché eggs wavy due to excessive moisture. It is better to work in two thin layers in case the paint does not cover immediately.

After the base color has dried, you can paint on bunnies in different colors. Mine have two sizes to get different sized fluffy tails. Once the colors are dry, glue on the white pompoms . To do this, cut off a small piece of the pompoms , put some glue on it and press it firmly onto the bunny.

As soon as all pompoms are firmly glued and the glue has dried, hang the eggs on the bush. Now your colorful easter decoration only still needs a nice place in your home.

Have fun crafting!
