

# Colour the autumn sign

Instructions No. 3449

Difficulty: Beginner 🍃🍃🍃🍃

Working time: 1 hour

Autumn is a magical time of year, bringing a touch of magic into our homes with bright colours and cosy evenings. So why not capture this magical mood and turn it into a unique DIY project? With our simple instructions, you can create a **beautiful autumn sign** that will decorate your home perfectly and show off your creative skills. Let's get started!

## Magical autumn decorations: design your own autumn sign

### Step 1: Paint your sign with autumn colours

Start by painting your sign as desired with VBS craft paints. These colours are known for their luminosity and versatility. Grab a brush and let your creativity run wild. Whether it's vibrant reds, warm shades of orange or muted browns - the choice is yours.

### Step 2: Create colour gradients with the sponge

Colour gradients give your sign a special depth and dynamism. Use a sponge to gently dab the colours and let them flow into each other. You can moisten the sponge slightly to blend the colours better and create a smooth transition. Experiment with different pressure levels and movements until you are happy with the result.

### Step 3: Wait for the colours to dry

Once you have finished painting, it is important to allow the sign to dry completely. This gives the colour the opportunity to set optimally and prevents smudging as you continue working. Allow enough time so that you get a perfect result.

### Step 4: Attach the string

Now it's time to loop the sign. To do this, tie a string to your sign at the designated point. Make sure that the knots are tight so that the sign hangs securely. The string gives your work of art a rustic charm and makes it ready to be looped in a suitable place as decoration.

### Your autumn project is complete!

Now that you've created your own autumn sign, it's time to decorate your home with it. Every time you take a look at it, you'll be proud of your creative project.
