Colourful Terracotta Pots

Instructions No. 1141

In this manual we explain how you can quickly and easily make the colourful Terracotta-pots yourself. Whether as a flower pot on the terrace or as an eye-catcher in the entrance area, these cheeky figures and animals are guaranteed to put you in a good mood.

And it is as simple as that:

Which craft material do I need for the funny Terracotta-pots?
To make the colourful Terracotta-pots you need weatherproof Handicraft paint like the VBS Outdoor Color, Foam sheets, Wobbly eyes, and Polystyrene balls. Brush, scissors, a permanent Marker, a hot glue gun as well as the printed motif template from the appendix should be kept ready.

How do I make the colourful Terracotta pots?
First, the Terracotta-pots and Polystyrene balls are painted in the desired colour. Let the paint dry well. Then transfer the motif templates frog, leaf and bee wings to Foam sheets and cut them out. In the next step, the Polystyrene balls and Foam sheets-parts are attached to the Terracotta-pots using the hot glue gun

Finally, Wobbly eyes and Chenille wire are glued in the same way, and then covered with a permanent Marker painted on their faces.

Must Have
