Creatively designed envelopes for greeting cards

Instructions No. 977

Personalise your Christmas mail and hand over your greeting card in a self-made envelope. Thanks to Stencil the shape is guaranteed to succeed and the wintery design-Paper with its numerous motifs offers a great Selection. The decoration with Raffia and the button harmonise with the style of the papers. For other formats, such as a Voucher-envelope, the templates of the "London" set are suitable.

And so simply it goes:

Place the Stencil on the design-Paper of your choice and draw the outlines. Cut out the contours and fold the packaging using the folding leg. Glue the pages together with the tape-Ribbon . For decoration, stick on the Raffia and the wooden buttons decoratively. You can also cut out individual motifs from Paper and stick them on, as you wish.
