How to make your own trendy boho pendants

Print out our template and cut out the motifs in it.

Before you can work with the modeling clay, knead it well. This will soften the mass and make it easier to roll out.

Next, you just need to place the previously cut out motif templates on the mass and transfer them. You can do this by carefully scoring the edges with a hobby scalpel.

Simply cut out the motifs with the hobby scalpel.

The holes are created by piercing the mass with a bamboo skewer. Tip: Leave the skewers in the holes during the drying time and turn them in between so that they do not stick to the mass.

The edges and surfaces can now be smoothed with a little water.

The motifs must then harden - the drying time is approx. 24 hours.

Pendant decorate

After drying, if there are still any unevennesses on the pendants, you can carefully sandpaper them. The finished modeled motifs can now be decorated as desired. Use different colors and yarns according to your personal preferences. We have additionally used stamps and wooden balls for the perfect look in our idea.
