Decorative ring as an Easter table decoration

Instructions No. 3004

Difficulty: Beginner

Working time: 4 Hours

In this Easter table decoration, craft blocks are combined with a metal ring and elegantly designed decorative eggs to create an absolutely trendy eye-catcher with that special something.

First, make a base from the craft wood to which you can attach the metal frame and which you can also use as a stand. To do this, glue individual pieces of craft wood in front of and behind the metal ring and fix them in place with glue. In our example, we have extended the base at the front in a herringbone pattern so that a larger area can be used for the decoration.

Glue individual pieces of wood together to form a cross brace on both sides of the metal ring and then insert the decorative ring between two of the pieces of wood. It is also advisable to fix the ring in place with glue.

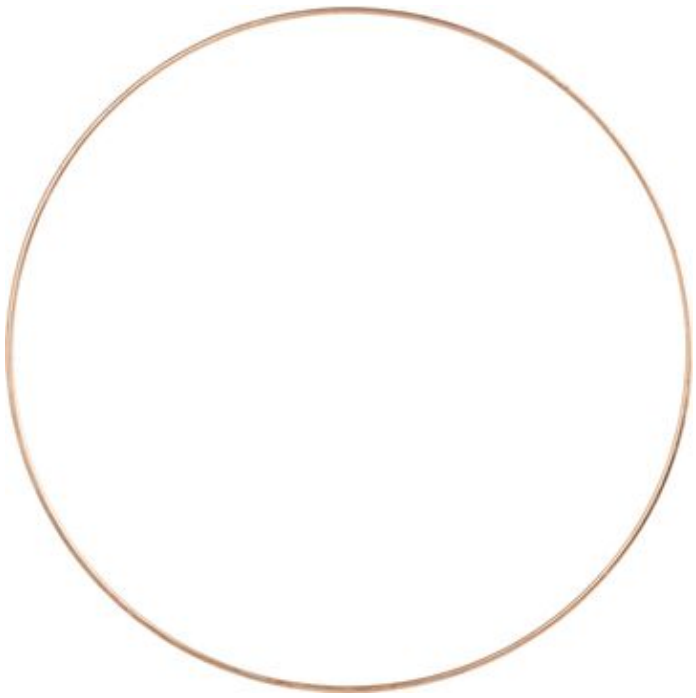

Paint one half of the plastic eggs with paint and, once everything is dry, place a strip of washi tape on the eggs as a decorative color border.

For the floral decoration, fill the eggshells with flower arrangement foam, and then decorate them with wood wool, ranunculus and small figures. Stick on little bees and arrange everything on the craft sticks. To hang the painted eggs on the ring, simply pierce the eyelets in the decorative eggs.

Must Have

Metal ring "Circle", Gold color, Ø 35 cm

Diameter (outside): 35 cm
Material: Metal
