

# Deo cream in a jar

Instructions No. 2660

Difficulty: Beginner 🍴🍴🍴🍴

Working time: 1 hour

Are you also a big fan of homemade natural cosmetics? Then our idea will surely inspire you! This deodorant cream in a jar is made from natural ingredients and is therefore also perfect for sensitive skin.

The deodorant in a jar is also a wonderful gift.

## Make your own deodorant cream

Fill the melting pot with water at the side filling opening and close it tightly with the stopper.

Now add the following to the pot:

3 tbsp. shea butter

3 tbsp. coconut oil

4 tsp. beeswax pastilles

Bring everything to a melting point at a low temperature. Keep stirring in between. Let the mixture cool down a

little.

Voeg nu maximaal 10 druppels essentiële olie "Citroengras" toe en roer nogmaals krachtig. Omdat deze olie sterk geconcentreerd is, mag ze alleen gedoseerd worden gebruikt.

Fill the finished mixture into a preserving jar and leave the deodorant cream to harden completely in the refrigerator.

## Decorate the jar

Cut a 25 cm long and 3 cm wide strip from the motif block and decorate it with a stamp. Also cut out a circle with a diameter of 6 cm and label it with a liner. Fix both to the glass with craft glue.

Finally, tie a cord around the glass.
