Are you also a big fan of homemade natural cosmetics? Then our idea will surely inspire you! This deodorant cream in a jar is made from natural ingredients and is therefore also perfect for sensitive skin.

The deodorant in a jar is also a wonderful gift.

Make your own deodorant cream

Fill the melting pot with water at the side filling opening and close it tightly with the stopper.

Now add the following to the pot:

3 tbsp. shea butter

3 tbsp. coconut oil

4 tsp. beeswax pastilles

Bring everything to a melting point at a low temperature. Keep stirring in between. Let the mixture cool down a

little.

Voeg nu maximaal 10 druppels essentiële olie "Citroengras" toe en roer nogmaals krachtig. Omdat deze olie sterk geconcentreerd is, mag ze alleen gedoseerd worden gebruikt.

Fill the finished mixture into a preserving jar and leave the deodorant cream to harden completely in the refrigerator.

Decorate the jar

Cut a 25 cm long and 3 cm wide strip from the motif block and decorate it with a stamp. Also cut out a circle with a diameter of 6 cm and label it with a liner. Fix both to the glass with craft glue.

Finally, tie a cord around the glass.
