

Dream ball with gnome

Instructions No. 3178

Difficulty: Beginner 

Working time: 20 Minutes

Enchant your home with little miniature gnomes under the glass bell

Winter is just around the corner and what better way to welcome the cold season than with a homemade, magical snow globe right in your living room? With our creative inspiration, your home will be adorned with wintry Secret Santa magic in no time at all.

Start your DIY project by covering the base of the decorative glass bell with decorative snow. Gently distributed, the snow provides the first authentic eye-catcher in your glass bell.

Place the small figures and a miniature fir tree on the still damp carpet of snow.

Allow your creation to dry before carefully placing the glass bell over your scenery. This glass bell not only protects your snow globe, but also adds a touch of elegance and beautifully highlights the winter wonderland.

As a finishing touch, you can add sparkling stars to the outside of the glass bell. These small, shining accents will turn your snow globe into a real eye-catcher that will look perfect on any table, windowsill or shelf.

Discover a variety of other creative materials in our online shop that will inspire your imagination. Your snow globe is just a click away!
