Dwarf home for Christmas

Instructions No. 2071

Difficulty: Advanced

Working time: 7 Hours

The small miniature living room for little elves is an extraordinary decoration for the Christmas and winter season. Discover lots of little details to make and arrange in this idea.

A wooden or fruit crate is used as the "living room". Cover the base with Christmas decopatch paper, which makes a great background wallpaper. Fix this in the crate with a little hot glue.

Design with paint

A wall panel is made from wooden sticks, miniature painting boards are turned into small wall pictures. Paint the wooden sticks with white paint, give the Secret Santa door and the many small accessories a Christmassy look with white, aubergine and a little gold paint. With a little paint, you can also create little gnome murals on the painting boards.

furniture

A small table and small chairs can be wonderfully made from simple wooden sticks and a wooden square strip. You will need only a pair of scissors, possibly a craft saw and handicraft glue.

Wall design

Stick the "wallpaper" to the height of the wall panel with double-sided adhesive tape. Arrange the white-painted wooden sticks and the gnome door to form a wall panel on the Paper. The wooden sticks can be easily cut to size with scissors.

Furnish

The little pictures, furniture, rugs made from Paper and miniatures can now be arranged to create a cozy little room according to personal taste. Of course, a little Christmas tree is a must.

Equipped with an LED chain of light and decorated "miniature Christmas tree branches", the finished gnome's home is sure to be the perfect eye-catcher in your home!

Must Have
