Embroidery ring as lantern

Instructions No. 2370

Difficulty: Beginner

Working time: 45 Minutes

A different kind of **embroidery ring** - these **lanterns** are super simple and can be made with very little material. The finished lanterns give off a beautiful light and are also perfect as a gift. The lanterns made from embroidery rings are great to make and can always be decorated according to the season.

This is how you create the beautiful lanterns:

1. First cut the **tracing paper** to the size you need. To determine the circumference, it is best to place the tracing paper overlapping the desired size of your **embroidery ring**. Mark the required length plus a glue margin.
2. Cut out the desired **scratch stickers** from the sheet and decorate the tracing paper in the desired places. Then peel off the backing film and rub the sticker onto the paper using the wooden stick provided.
3. Now stick the transparent paper together to form a ring and place it in the ring.
4. With an **LED tea light** or a **string of lights**, your lanterns will now shine beautifully and give off a cosy light.

Must Have

VBS Embroidery hoop, Ø 11 cm

Diameter (outside): 11 cm
Material: Wood

3,19 €
