Engel in sanften Tönen gestaltet

Instructions No. 931

Who says that angels always have to be golden?! These **angels**, held **in soft shades**, appear as noble and graceful as their golden companions. Whether in **country house style** or in the natural Christmas decoration with cones, branches and fruits, these angels will convince you by their reserved elegance.

And it's as simple as that:

Loosen both wings carefully from body and prime everything in Ivory.
After drying, wipe the body with stamping ink, stamp the curlicues and then accentuate the curlicues with fine, ivory brush strokes
Use the wings as Stencil, to cut them from the aluminium sheet.
Now use the small ball on the metal pressing tool to border the wings and press in curls.
Wipe over the raised circles with stamping ink.
Finally, glue the wings completely back to the body and tie a bow around the neck with the chiffon ribbon.
