Flowers made from wooden pegs

Instructions No. 3591

Difficulty: Beginner

Working time: 9 Hours

This idea is ideal for the **crafting with children**. Children will love painting, attaching clothespins and making foam rubber leaves! Create individual plant pins in no time at all that are both decorative and practical.

1. Paint the clothespins and rattan cane shelvesStart by painting the clothespins and rattan cane shelves in colors of your choice. You can choose patterns or a single-colored design. Then leave everything to dry completely.2. prepare the round sticksWhile everything is drying, saw a 2 cm long and 4 mm wide slit into one side of the round sticks. A fine saw is suitable for this. After sawing, paint the rods in your desired colors and let them dry well.3. Attach the clothes pegsAs soon as the paint is dry, attach the painted clothespins to the rattan cane bases. 4. Connecting rattan cane bottoms and round rodNow use hot glue to stick each rattan cane bottom into the

previously cut slot of a round rod. Make sure that everything holds well and that the glue cools down completely before you continue.5. Create leaves from foam sheets Print out the template for the leaves and cut them out carefully. Place the cut-out template on the foam sheets and outline it with a marker pen. Then cut out the leaves from the foam sheets . 6. Attach the leaves to the round wooden stickPlace the leaves on the round wooden sticks and attach them with hot glue. If you want to make the leaves movable, you can glue a piece of aluminum wire under each leaf with hot glue. This way, you can shape the leaves later according to your ideas.ready to get started? Discover all the materials you need in our online store and make your own colorful plant plugs.

Look forward to your own miniature garden: You'll find all the materials you need for your craft project in our online store. Order now and get crafting!

Must Have

VBS Wooden clips

Content: 40 pieces
Length: 7.2 cm
