From the casting mould to the candlestick

Instructions No. 387

Just change your perspective: If you turn these moulds over, they turn into chic candlesticks. and beads Embellishment in warm autumn colours make a great table decoration.

It'sthat simple

Turn the mould over and fill the hollow space in the base with Structure Paste and smooth it out with the spatula to create the contact surface for the candle. Let dry well.
Dab Structure Paste onto the outer surfaces and let it dry.
Prime the Kandelaar may green and set accents after drying, for this purpose lighten may green with Ivory
Accentuate the edges honey yellow and brown and paint shades.
Pieces from Cut the copper wire and bend the curls with the jewellery pliers.
Thread beads and fix felt leaves with hot glue, at the same time fixing the decorated wire to Kandelaar .
Tip: For decoration, the copper wire can also be wrapped bare around the Kandelaar .
