Great garden decoration

Instructions No. 164

Difficulty: Beginner

This impressive flower plug welcomes your guests to the summer garden!
A great decoration that is simply made.

That's how it's done:

Clean the Acrylic ball so the surface is free of grease.

The Straw silk paper is torn into small pieces and glued to the ball halves with Napkin varnish overlapping. After the paint has dried, orange shades are painted on with Handicraft paint

While the paint is drying, a Stencil is made for the petals. These can be enlarged and reduced at will. With the help of Stencil the petals are then cut out of Textile felt or Foam sheets .

Prime the round stick with green paint, let them dry. Insert the round stick into Acrylic ball and fix it with hot glue. Glue the smaller petals to the centre of the ball with hot glue and use the larger petals to form the outer rim.

For the flower stalk, cut out individual leaves and attach them to the ball with hot glue.

Extra tip
Bring the flowers with a LED light chain to shine! Simply melt a hole in the Acrylic ball with the hot glue gun and thread the light chain through.

Must Have

Acrylic ball, Ø 18 cm

Number of parts: 2
Diameter (outside): 18 cm
Material: Acrylic

5,99 €
