Instructions for a Christmas cushion parade

Instructions No. 1335

Difficulty: Beginner

Working time: 1 hour

Welcome to the cuddly soft Christmas magic world! With the help of these instructions, you can quickly sew **beautiful Christmas tree cushions -** a perfect and very up-to-date Home Decoration.

Here's how it's done

Every Christmas tree is sewn according to the same principle. Sew cushions in number, size and with decorative fabrics of your choice.

First download the design template for sewing the fir tree. The template consists of one Pattern-template each for a fir tree large and small and a matching "application template": large and small.

Transfer these templates to a large sheet of paper Paper, use it as Pattern, and cut out two fir trees of the same size for each cushion and the matching Application from your fabric.

Place the Application on the ironing fleece and connect both parts by ironing. Then cut a decorative fabric edge with the pinking shears. Now remove the backing paper from and iron the self-made iron-on application onto the front of the cushion.

Fold front and back of pillow together and sew together on the left side, leaving a small turning opening open. The decorative cushion cover can now be turned to the right.

Finally, stuff the new decorative cushion with filling cotton wool and sew the opening.
