Invitation card from motif paper

Instructions No. 595

With the silver eyelets and the jewellery clasps, which are transformed into door handles, this card made of motif photo cardboard looks almost like a real gate. With such an invitation, the party is sure to be a great success.

Here's **how it works**

Cut the motif photo box to 21 x 24 cm
Fold 5.25 cm from both sides with the folding leg inwards and fold towards the middle to create a "gate".
With the compass and a radius of 5,25 cm mark and cut off a semicircle in the upper part of the card.
Cut an approx. 1.5 cm wide strip from the motif photo card and stick it vertically onto the right half of the goal with Glue pads so that the strip protrudes onto the left half of the goal.
Transfer the "fittings" from the template sheet four times to black cardboard, cut them out and glue them to the card with a glue stick. Also glue two small squares at the height of the door handles.
Fix the toggle fasteners as handles with wire, pierce holes with a needle and thread the wire through the cardboard, then glue it on.
Punch holes with the middle eyelet punch along the fittings, put the eyelets through and fix them on the back with the other side of the punch.
Tear out a piece from bright Coloured paper , write on it and wipe over the edges with Ink Pads .
Glue this cardboard into the card and also decorate the edges with the eyelets.
