Light bulbs bees

Instructions No. 1947

Difficulty: Beginner

Working time: 1 hour

Bees are very useful animals and are particularly well suited as models for handicrafts. Especially **children** love to tinker insects. Our bees are made of **light bulbs** and do not look good on only window sills, but they also enchant when hung up with a perlon thread.

This is how the cute bees are made:

Paint the thread of the **bulb blackHandicraft paint.** Now glue alternately black and yellow **fibre silk** onto the bulb, so that the stripes characteristic for bees are created. For this you paint first the bulb with **Napkin varnish** and then glue on pieces of the fibre silk. Then brush over the fibre silk with a brush and additional varnish.

From the **winding wire** you turn **wings, stingers and feelers and glue** them to the bees with hot glue. At the end still the **Wobbly eyes** fasten it.

Must Have

VBS Decorative light bulbs, 12 pcs., screw-on

Fill volume: 50 ml
Content: 12 pieces
Diameter (outside): 4.5 cm
Height: 8 cm
Material: Metal, Clear glass

14,99 €
