

# Make your own glass markers & pendants easily

**Instructions No. 3353**

Difficulty: Beginner

Working time: 1 hour

## Elevate Your Party with Personalized Glass Markers

Who doesn't know it: At parties without fixed seating, the question quickly arises, which glass belongs to whom. But now, that's a thing of the past! With our creative glass markers, you can assign each guest their own personal glass. This way, the next party will be a complete success – without any annoying mix-ups. Of course, you can find everything you need in our online craft store.

### Glass Markers - Step-by-Step Instructions

#### Variant 1: Charms Glass Markers

This variant is probably the easiest: Take the charms and attach them to the key ring using rings. You can choose different motifs and decorations as you like.

### Variant 2: Fimo Glass Markers

For this variant, use Fimo to create small motifs that can later be placed over the rim of the glass. Make a slit in the motif. It's helpful to work directly with the glasses you plan to use later, so you know exactly how the slit should be shaped for a perfect fit.

Ensure the slit isn't too small and that the glass marker isn't wobbly on the glass.

Use a straw to poke a hole in the center for easy attachment. Bake the Fimo at 110°C (230°F) using top and bottom heat for about 20 minutes.

### Variant 3: Combine Charms with Fimo

The last variant combines elements from the first two methods: First, create the Fimo pendant. Then, insert a prism pin through the pendant, bend the end into a loop, and trim the length if necessary.

These are also baked at 110°C (230°F) for 20 minutes. After cooling, you can attach the pendants to a key ring using a ring.

### Prepare Your Glass Markers

Once your glass markers are ready, you can decorate your glasses with them. Each guest can choose their favorite motifs, and glass mix-ups will be a thing of the past. Have fun crafting!
