

Make your own key fob

Instructions No. 3340

Difficulty: Beginner

Working time: 1 hour

Fluffy pompom keychains with trendy tassels and beads can be easily made by yourself. With these keychains, you are right on trend. A great accessory that not only looks good on a keychain but also makes a real eye-catcher on a handbag, makeup bag, or wallet.

Turn your keyring into a fashionable highlight with homemade pompom keychains! This personalized DIY guide leads you step by step through the process to create your own trendy keychain with pompoms, tassels, and beads. Whether as a personal accessory or as a unique gift – this keychain is sure to bring a smile to your face. Follow the simple steps and create your own personal pompom keychains!

Step 1: Make Pompoms

With the help of a pompom maker, you can easily create great pompoms by repeatedly wrapping the yarn around the pompom maker. Don't lose patience, the result is worth it.

Step 2: Trim the Pompom

Now you need to trim the pompom to your desired size. To do this, simply snip around the edge with a pair of scissors until you're happy with the result.

You need to leave the string attached. You will use it later to attach the pompom to the keyring or to string the beads.

Step 3: Make Tassels

As you like, you can use a tassel maker to create some tassels that can be attached to the pompom. They are super easy to make and look fantastic.

Step 4: String Beads

For an especially exciting look, you can now string some beads. You can choose between lots of sparkle or a more understated look. The picture shows why the string stays on the pompom – it's perfect for stringing beads.

Step 5: The Finishing Touch

To give your keychain the finishing touch, you can attach feathers or wings as you like. To do this, attach small rings to the charms. The tassel can now also be attached to the pompom. Let your creativity run wild!

This DIY trend is definitely an eye-catcher. Have fun crafting!
