Making fragrance balls

Instructions No. 2105

Difficulty: Beginner

Working time: 3 Hours

Simply create great **fragrance balls** from natural ingredients. The fragrance is produced without chemicals, but with essential oils. Ideal for bathroom, wardrobe, car and other rooms.

First fill paper cups with lukewarm water and add a tablespoon of **batik paint**. Stir the water well with a bamboo skewer. Add one wooden ball each and leave it in the water bath according to the desired colour intensity. Remove the balls from the water and leave them to dry on a protected surface.

Spread the wooden balls with the desired **fragrance oil**. After drying, they can be put into storage jars with lids for storage or gift wrapping to preserve the fragrance for a long time. So that you know which fragrance is in which jar, you can write labels and stick them onto the storage jar. This looks particularly beautiful and is also a great gift idea.

Tip: When the fragrance wears off, simply put a few drops of the fragrance oil on the wooden ball again.

Must Have

VBS Wooden balls without hole "Ø 30 mm", 25 pcs.

Content: 25 pieces
Diameter (outside): 30 mm
Material: Beech wood

9,95 € (1 pieces = 0,40 €)
