Maritime mast rings

Instructions No. 2701

Difficulty: Beginner

Working time: 4 Hours

Ahoy! With these decorative instructions, you can bring a beautiful maritime flair into your home. The wooden rings are given a maritime design and are then ideal for hanging up.

The first step in these instructions is to drill a hole in the centre of the existing driftwood. Place the bamboo skewers here. To make the skewers more stable, we recommend fixing them in the holes with a little hot glue. Now knot a piece of jute cord to the skewers and fix it to the driftwood with hot glue. Then pull the ends of the cord through a wooden ball, which you then pull onto the skewers. Next, pull the cords tight. Now you can tie the cotton cord strands to the cord with the lark's button knot.

Then untwist and comb the strands and cut them diagonally to form the sails. Coat the sails with Deco Festiger to fix them. Now pull the cord tight again. Glue a flag on top, which you make from the striped tape. Cut off the protruding ends of the cord and skewers. Glue the finished boats into the rings with hot glue. Decorate the large ring with the striped ribbon and letters and your nautical wooden ring is ready.

Must Have
