Miniature decoration wind chime with balloons

Instructions No. 2694

Difficulty: Advanced

Working time: 4 Hours

With the crafting of this playful miniature world, you can make dreams come true! Enchanting balloons and small play figures with Secret Santa hats are thereby glued with fir trees on a tree slice - very decorative not only at Christmas time!

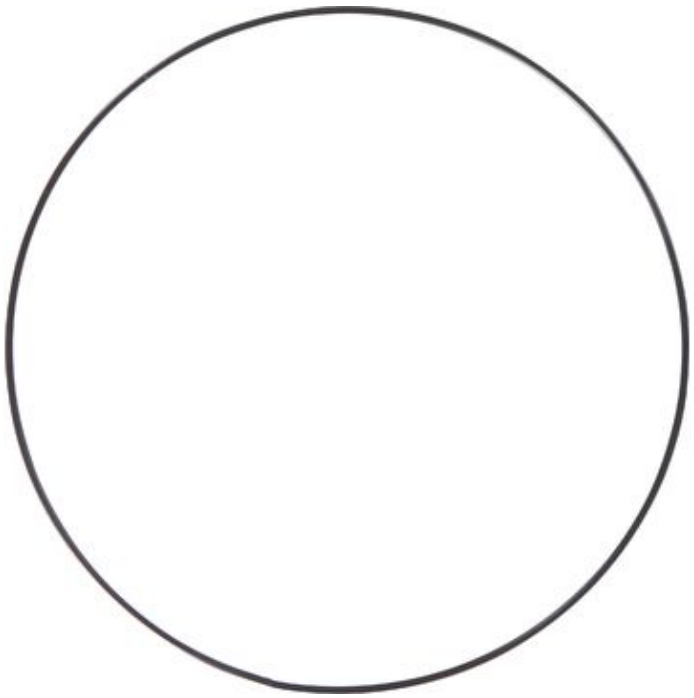

Tie the tree balls to the metal ring with the wire, fix with hot glue. For the black balls, cut the ribbon and knot one side to the balls. (The ribbons will be glued to the figure cone later.) Hot glue to the other balls. Add the balls to the ring from both sides.

Saw off 2 pieces of the square strip, each 12cm long. To make the ring stable later, first glue a wooden strip in the middle of the tree slice. Place the ring in front of it and glue the second piece close to the ring. This way, the ring sits firmly between the strips.

Print out the pattern for the hat, cut it out and transfer it to the felt. Cut out and glue together with hot glue. Glue the half bead (nose) and the hat to the figure cone with hot glue. Take the ribbons of the balls together and glue them to the back of the figure. Place or glue the different sized fir trees on the tree disc.

Must Have

Metal ring "Circle", Black, Ø 25 cm

Diameter (outside): 25 cm
Thickness: 3 mm
Material: Metal
