Miniature landscape with cottage

Instructions No. 2117

Difficulty: Beginner

Working time: 2 Hours

This little enchanted village looks simply magical. A great decoration for the windowsill, a dresser or on the table. With a string of lights inside, it becomes a great light decoration in spring.

First glue half the acrylic ball onto a wooden ring to form a stable foundation. Paint the different sized Styrofoam rings in pastel olive green and stick them with moss after they have dried.
Place the large ring in the acrylic sphere and fill the inside with moss. Cut the small polystyrene ring in half to create different heights on the surface. Add more moss as desired.
Once the base is ready, you can assemble the little houses, paint them with craft colours and place them on the moss once they have dried. Decorate the little landscape with flowers and a string of lights.

Must Have

VBS Wooden building kit "Little house"

5,29 €
