

Miniature landscape with houses

Instructions No. 2975

Difficulty: Beginner 

Working time: 2 Hours

Use this idea to create a detailed and aesthetic decoration in the zinc bowl. This is particularly suitable for spring or as a charming home accessory.

How to design the miniature landscape

Flower arrangement foam

Start by filling the zinc bowl with flower arrangement foam and cover it generously with sheet moss.

Flower arrangement foam is a firm, porous material that serves as more than just a filling. Flowers and leaves can be easily inserted and remain securely stuck in the filling.

Houses and accessories

Paint the small houses with craft paints according to your personal taste. Then use some hot glue to attach the painted houses securely to the moss.

Use your hot glue gun to attach other miniature accessories, for example from the "Landscape" nativity accessories, to the moss.

Flowers and grasses

Flowers and grasses give your decoration a floral accent. Cut the artificial flowers to the desired length. Use a side cutter for this. Then arrange them in the flower arrangement foam of the zinc bowl.
