

# Mug with miniature Easter signpost

**Instructions No. 3001**

Difficulty: Beginner 

Working time: **3 Hours**

Looking for a small, loving present for the Easter season? Why not create a little miniature world in a coffee mug! The many small details of this Easter signpost are sure to fascinate everyone.

Cut a small piece of dry Floral Foam and press it into the coffee cup. Cover it with sheet moss, quietly over the edge of the coffee cup, so that nothing of the flower arrangement foam is visible. Fix the moss in place with a little hot glue.

Paint the fence elements and the signpost with white craft paint. You can either use a ready-made miniature signpost or make your own from wooden sticks. Once everything is dry, label the signpost with a fineliners.

Now decorate the cup with the signpost, fence element and other small decorative accessories such as small Easter eggs, bunnies, flowers and other scatter decorations. You can easily fix everything in place with hot glue. The "Made with love" scatter decoration and a tied bow on the handle of the cup give this decoration that "certain something".

Have fun decorating and giving as a gift!

## Ideal for making signposts, too

[VBS Wooden sticks "Nature"](#)

[150 pieces, L: 11 cm, B: 1 cm](#)

Must Have
