Design creative christmas decoration in Nordic style

The pre-Christmas period is just around the corner and with it the opportunity to let your home shine in festive splendor. The Nordic style, inspired by the charming traditions of Scandinavia, gives your Christmas decor a timeless elegance. In this step-by-step guide, you will learn how to create your very own magical Nordic-style Christmas world - minimalist yet with a touch of coziness.

What is the Nordic style for Christmas?

The Scandinavian Christmas style is characterized by the classic colors red and white or even green. Subtle highlights in gold and silver give it a special touch, but the key difference to other traditional styles is its simple, clean look. Without a lot of glamor and glitter, the decorations appear less kitschy. Instead, they enchant with cute elements such as elks and gnomes, which are deeply rooted in Scandinavian nature and culture. Natural materials and wooden elements fit perfectly into the harmonious picture.

Craft basics in Nordic style

You will need basic craft materials to skillfully implement the Nordic style. Choose colors in red and white as well as green and subtle tones in gold and silver. For example, use Christmas craft basics from our online store and paint them. Use white casting slip or modelling clay for your creative project. Let us inspire you.
