Papercut lantern

Instructions No. 2577

Difficulty: Beginner

Working time: 3 Hours

When it gets uncomfortable outside, we make it all the nicer indoors! These lanterns with papercut motifs are just the thing! They provide pleasant light and create a cosy atmosphere.

Make lanterns with autumnal motifs

Print out the free motif template and transfer it to the clay cardboard with graphite paper.

Cut out the outlines with scissors and the leaves with a scalpel.

Fold the dotted lines with the folding leg and a ruler and then crease them.

Roughly cut the transparent paper and stick it behind the leaves from the inside.

Use a black marker to add text and accents.

Finally, glue the lantern together with craft glue. Light it up with an LED candle or a string of lights.

Must Have

Vellum paper, 10 sheets, Colourful

Grammage: 115 g/m²
DIN format A4
Material: Paper

5,49 € (1 m2 = 8,78 €)
