Potholder "Christmas tree balls"

Instructions No. 703

Difficulty: Beginner

Working time: 45 Minutes

With these **self-sewn potholders**, baking cookies is even more fun. They consist of only a few individual parts and are sewn so quickly that you'll want to give some of them away right away. The instructions are a great **sewing project for the Christmas season and also** ideal for sewing beginners.

Here's**how it works**

For a potholder made of one fabric, transfer the entire pattern twice to your desired fabric (in our case the red fabric) using a line-ex pen. For a potholder made of fabrics, transfer the three individual parts twice each to your desired fabrics (the blue fabrics in the example). Cut out the individual pieces and sew the blue blanks together to form a circle. Then iron the seam allowances apart.

Now iron all four fabric panels onto the iron-on fleece and then onto the fleece line and cut them out again exactly. The iron-on fleece prevents the fabrics from fraying later

Place the individual parts left to right on top of each other and sew everything together with a tight edge. At the upper edge, place the lace between the Thermolam layers. As a hanger, tie a loop from Satin ribbon with a bow and sew it on by hand.

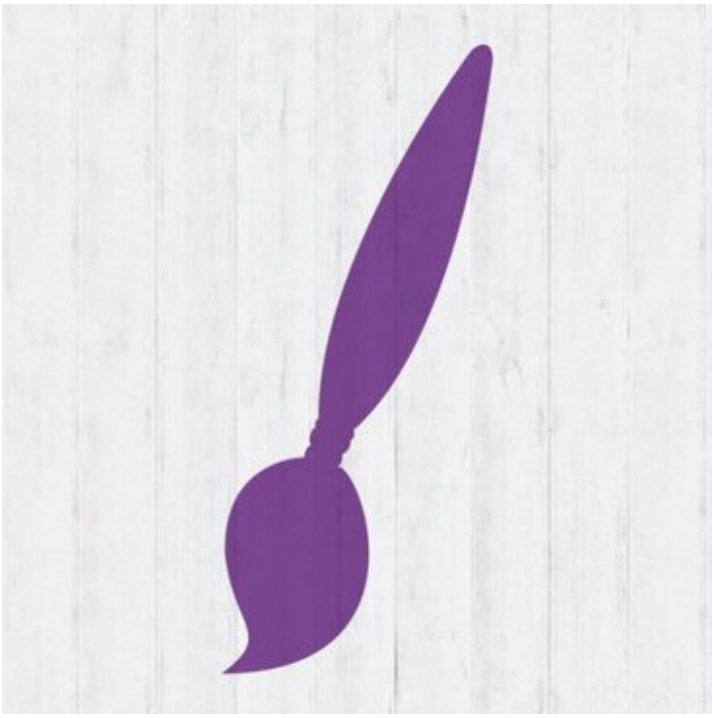

Dear sewer, as fabrics are seasonal goods and we always want to have trendy fabrics in stock for you, it can happen that the sewn fabric is no longer in our range.

In our fabric section you will find a large selection of great fabrics. Click **here** to discover **all the fabrics**.

This idea is timelessly beautiful!
