Praktisches Tablett in Patchwork-Optik

Instructions No. 461

Difficulty: Beginner

Working time: 30 Minutes

Fabric is incredibly versatile. You can't only sew it, you can also glue it. Here, different cuts are joined together on a sturdy tray to form a patchwork pattern, the transitions are laminated with ribbons and lace. This gives the large tray an unusual country house look.

Here's **how it works**

Wipe at the beginning Acrylic Colour in tones Umbra fired and titanium white with a damp Paint sponge over the tray and let the primer dry
From the different fabrics you now create a patchwork pattern and cut the individual pieces with the fabric scissors. Spread a thin layer of wood glue on the bottom of the tray, place the cut pieces on top and press them firmly into place.
After a short drying time you can stick bobbin lace and zigzag tapes with tape-Ribbon between the blanks

Finally, use hot glue to fix individual satin scatter roses in the corners, stick Satin ribbon over the long sides of the border and tie bows in the tray handles.
