

# Regenschirm gestalten

Instructions No. 1616

🎨🎨🎨 Difficulty: Beginner

🕒 Working time: 30 Minutes

Create a **colourful highlight** from a boring umbrella. With a little colour you can easily create a **fashionable companion** - even the rain is fun!

First **prime** the canopy, we have chosen a special paint which is waterproof when dry. For this purpose, apply a thin layer of white **paint as a primer** with a sponge or brush and let it dry (approx. **2 hours**), so that the colours on the material are shown to their best advantage

Afterwards you can start painting. We **have painted** the **outer edge** with **dark green paint** and **painted** a circle in **red** on the inside. The edges of the circle let you gently and somewhat irregularly run out. Leave about 7 cm distance between the circle and the border. Leave to dry well.

Finally, paint small **black triangles** to represent the melon seeds.

You can also design great accessories with the effective **special paint such as** bags, shoes or belts or create **new** favourite pieces from old accessories by upcycling.

Great examples:
