

Rustikaler Henkelkorb im Landhaus-Stil

Instructions No. 556

Your cutlery is always ready to hand in this sturdy handle basket. The small metal elements, which are simply stuck onto the rustic stiffened fabric, are the perfect decoration. Fabric tape, Lace ribbon and small buttons complete the country house look.

And this is how it's done:

In the first step, prime the handle basket white from the inside and outside.
Then cut the **fabric** to fit the different surfaces and glue it on with Handicraft glue .
Tip: Cut the fabric with a pair of prong scissors so that the edges do not fray out.

Decorate the surfaces with self-adhesive fabric tape, lace and buttons. Glue the small pieces of cutlery evenly distributed with hot glue on the front.
Finally wipe over the edges and over the handle with Ink Pads and knot a bow from Lace ribbon to the handle.

Well-sorted storage of cutlery

Place small storage jars in the basket. These are excellent for sorting knives, forks and spoons. The glasses can also be decorated very easily. Instructions 557 Storage jars in country house design shows you how it works.
