Santa Claus house with branding

Instructions No. 2641

Difficulty: Beginner

Working time: 1 hour 30 Minutes

Create a trio of houses from Santa Claus with little effort from three plain wooden houses. A great idea with paint and brand painting.

First sketch out the decorations and lettering with a pencil, which you would like to process with the branding pen. Draw with this afterwards. Paint the sides of the houses and some scattered parts with craft paint.

Once the paint has dried, attach a jute cord to the sides of the houses as a further decoration using double-sided adhesive tape.

Now just fix some scatter pieces to the houses with craft glue and the houses are ready.

Must Have

3D wooden house, set of 3

Number of parts: 3
Material: Wood

8,59 €
