Self woven raffia lamp

Instructions No. 2346

Difficulty: Beginner

Working time: 4 Hours

With this idea you become a lamp designer yourself. Enjoy weaving and be happy about your own stylish lamp.

Natural lamps design to suit your personal taste

The lamp shown was created with a lamp ring Ø 20 cm and is about 15 cm high (upper lamp ring to lower lamp ring). You are welcome to adjust the size and height according to your own ideas, the quantity consumption can be adjusted accordingly.

Place and bend the wire mesh around the upper lamp ring so that you can cut it to the exact circumference (approx. 63 cm) and to the desired height with a side cutter.

Attach the grid to the upper lamp ring with raffia. You can do this by wrapping the raffia around the lamp ring and lattice and connecting everything together.

Fix the lower lamp ring to the grid with raffia as well.

Now thread the natural raffia in patterns to your liking until the entire lattice area is filled.

Fix each of the raffia ends with a little craft glue.

Decorate the bottom lamp ring with raffia fringe and hang the lamp using the lamp connector set. You can shorten the finished fringes with scissors if you wish.

Must Have

Paper raffia, L 100 m, Beige

Length: 100 m
Material: Wood fiber

5,19 € (1 m = 0,05 €)
~~RRP 5,46 €~~
