Sibling school cones

Instructions No. 2555

Difficulty: Beginner

Working time: 2 Hours 30 Minutes

The first day of school is an exciting celebration for the child starting school, usually with a party, guests and of course the first visit to school. But what about the siblings? To make them happy too, there are small school cones - the sibling school cones. These mini school cones can also be filled with little things and so the siblings are even happier!

Sibling school cone with mosaic look

Stick the stickers onto the school cone blank in a mosaic look as you like.

Attach a sheet of the straw silk from the inside to the top edge with craft glue.

Fold the school cone blank in the places already folded and apply a little craft glue to the edges. Now you can pin the blank together. Let the glue dry.

Shorten the straw silk as desired.

And now the most beautiful part begins - the filling: Fill the sibling school bag with small sweets, apples and small gifts. The school bag can be closed with a little satin ribbon.

Sibling school cone with elf

Design the school cone cut-out with the help of the template and the different colours.
In our example, we used different craft and chalky colours as well as colours with a great shimmer effect.

To design, spray the template with a little adhesive spray and place it on the school cone. This prevents it from slipping easily. Now you can stencil the motifs with stippling sponges and the different colours.

Tip: To get clean colour transitions, you can mask off the areas of the stencil that should get a different colour with masking tape.

Once you have finished your design, remove the stencil and clean it under lukewarm water.

Allow the colours to dry completely.

Add more glitter accents as desired with the Glitter Glue. Use tree bus skewers for this. Allow the glue to dry.

Attach the florist's crepe to the inside of the top edge with craft glue.

Fold the school cone cut-out in the places already folded and apply a little craft glue to the edges. Now you can pin the blank together. Let the glue dry.

And you can fill the sibling school cone with goodies and small gifts. Close the school bag with ribbon.

Must Have

Siblings school gift bags cutout, White

Grammage: 400 g/m²
Height: 41 cm
Material: Paper

3,29 €
