

# Soap ship

Instructions No. 3301

Difficulty: Beginner 🍴🍴🍴🍴

Working time: 2 Hours

## Making a soap ship: A maritime DIY-project for creative minds

Would you like to create a unique maritime decorative piece that will add a breath of fresh air to your bathroom and whose DIY Soaps can also be used for washing? Our DIY-Soap ship is the perfect project! In these instructions, we'll show you how to conjure up a beautiful soap boat using eco-friendly pouring soap, craft paints and a little craftsmanship. Get inspired and get started!

### 1. Melting soap

First heat up a small amount of pouring soap. You can either melt it in a melting pot or with a melting ladle over a water bath.

### 2. Add color and fragrance

Once the soap has melted evenly into a liquid, add soap colour and fragrance oil according to your personal taste. Stir the mixture well so that the color and fragrance are evenly distributed.

### 3. Pouring and hardening

Carefully pour the liquid soap into a mold (up to about 5 mm below the rim). Leave the soap to harden for about 4 - 5 hours. You can then carefully remove it from the mold. To do this, tap lightly on the base of the mold until the bar of soap slides out.

#### 4. **Painting the boat**

Paint the wooden boat with craft paints. Once the paint has dried, coat the entire boat with acrylic varnish. This will protect the wood of the boat from moisture later on.

#### 5. **Transfer the lettering**

Print out the free template and transfer the lettering to the wooden boat using graphite paper. Then trace the lettering with marker pens.

#### 6. **Decorate**

Fill the boat with wood wool and arrange the soap bars with some shells on the wood wool. You can also place more shells next to your soap boat - this decoration is sure to delight you for a long time!

#### **Start your creative project!**

Are you ready to give your home a personal touch with your homemade soap boat? Get the materials you need for your creative project here in our online store! Look forward to your creative time-out and the finished maritime decoration!

## Must Have

VBS Decorative boat "Coastal fog"

Length: 36 cm
